

Thanks to all who attended our 2011 Field Demo....

Thanks again to everyone who attended our 2011 Field Demo, what a great day for tiling and learning. With over 50 in attendance representing Minnesota, Illinois, Iowa, South Dakota, and Manitoba the day was again a huge success. We again want to thank our sponsors...AGPS, Prinsco, and ADS for their representatives at the demo and for their contributions to making the day such a success. I also want to thank John Beadell from Kibble Equipment, and Brian Pfarr from the NRCS for attending and adding their insight into our industry, Paul Frank and his crew for the field demo location, building, and equipment, and Rick Mauer and his crew for the great noon lunch. Participants were treated to a morning of information, and education on all aspects of tiling, as well as time to mingle and meet others who tile and are learning the industry. After a great pork chop meal it was off to the field and on the job training. Paul Frank and his crew did a tremendous job showing all who were there the complete process from beginning to end and Wayne answered questions and explained what was going on. We are looking forward to Field Demo 2012 and will list that day on our show date calendar as soon as it's available. Have a great fall!
